

KONKR⁺

POCKET
ADVANCE

Power On / Power Off / Restart

In the power-off state, press and hold the power button "⏻" for about 3 seconds and then release to power on the KONKR Pocket ADVANCE. In the power-on state, press and hold the power button "⏻" for about 2 seconds to bring up the menu. Select "⏻" to shut down the KONKR Pocket ADVANCE, or select "🔄" to restart the KONKR Pocket ADVANCE.

Sleep Mode

In the power-on state, press the power button "⏻" to put the KONKR Pocket ADVANCE into sleep mode.

In sleep mode, press the power button "⏻" to wake up the KONKR Pocket ADVANCE. If a security screen lock has been set, you will need to draw the pattern, enter the password, or PIN to unlock and access the system interface. If both security screen lock and fingerprint recognition are configured, you can simply touch the power button to complete fingerprint recognition, which will quickly wake up and enter the system interface.

Note: After a power-off and restart, or after a restart while the device is powered on, you will need to re-verify the security screen lock before you can use fingerprint unlock to access the screen.

Volume Control

You can use the Vol Wheel "|||||—" "+" control volume function. Alternatively, you can go to "🔊" > "🔊" to adjust the media volume, notification volume, alarm volume, etc. accordingly.

Text Input

When you need to enter text, tap the input box to bring up the touch keyboard. Use touch input to enter text.

Pull-down Menu

To access the pull-down menu, swipe down from the top of the screen for the first time to quickly toggle settings such as WLAN and Bluetooth. Swipe down again to display the full pull-down quick menu. You can adjust the screen brightness by sliding the brightness slider, and perform other quick settings configurations.

Internet / Bluetooth

The AYANEO Pocket AIR Mini supports WLAN networks. To connect to a WLAN network, go to "🔊" > "Network and Internet" > "Internet". Select the network you want to connect to, enter the connection password in the "Security" box, then click "Connect".

Bluetooth: To connect to a Bluetooth device, go to "🔊" > "📶 Connected devices" > "+ Pair new device". Search for the Bluetooth device you want to connect to in the list and click on it.

Storage Expansion

The KONKR Pocket ADVANCE is equipped with a Micro SD card expansion slot. Open the dust cover, it's allowing you to install or replace the Micro SD card.

Battery and Charging

Please use the certified adapter correctly for charging to ensure safety compliance. Do not use adapters without safety certification as they may damage internal components and pose unpredictable risks.

When plugging in a USB Type-C cable to a power source, avoid prolonged skin contact with the plug to prevent discomfort or injury. Do not attempt to replace the KONKR Pocket ADVANCE battery on your own, as this may damage the battery, leading to overheating which could cause fires and personal injury.

The lithium-ion battery of the KONKR Pocket ADVANCE should be serviced or recycled by AYANEO or authorized service providers. Self replacement of batteries may pose a risk of explosion.

Please follow local environmental regulations for battery disposal. The battery should only be replaced by AYANEO or an authorized AYANEO service provider. Using incorrect battery models for replacement poses a risk of explosion.

Cleaning

Please use a lint free cloth to clean KONKR Pocket ADVANCE. Do not let the opening of the body get damp. Do not use aerosol sprays, solvents, or abrasives for cleaning.

Electromagnetic Interference (EMI)

The KONKR Pocket ADVANCE contains components with magnets and emits electromagnetic fields from radio waves, which may interfere with medical devices, pacemakers, defibrillators, or other medical equipment. Maintain a safe distance between medical devices and the KONKR Pocket ADVANCE. Consult your physician and the medical device manufacturer for information on your medical devices. If you suspect that the KONKR Pocket ADVANCE is interfering with your pacemaker, defibrillator, or other medical devices, stop using the KONKR Pocket ADVANCE.

Warranty

KONKR warrants the hardware products and accessories included with your purchase against defects in materials and workmanship under normal use for one year from the date of original retail purchase. This warranty does not cover normal wear and tear or damage caused by accidents or misuse. For service, visit the AYANEO store or an authorized AYANEO service provider. Available service options may depend on the country or region where the service is requested and may be limited to the country or region of original sale. There may be a charge for call and international shipping fees, depending on your location.

Service and Support

When you submit a valid claim under the warranty service policy, AYANEO will, at its discretion, repair, replace, or refund your KONKR Pocket ADVANCE. The warranty rights you have are in addition to the rights provided by local consumer law. When you make a claim under this warranty policy, you may be required to provide detailed information about your purchase receipt.

Names and Contents of Hazardous Substances in the Product

Hazardous Substance						
Part Name	(Pb)	(Hg)	(Cd)	(Cr(VI))	(PBB)	(PBDE)
PCB Components	×	○	○	○	○	○
Plastic Parts	○	○	○	○	○	○
Metal Parts	×	○	○	○	○	○
Power Cables	○	○	○	○	○	○

This table is compiled according to SJ/T11364 regulations.
○: Indicates that the content of the hazardous substance in all homogeneous materials of the part is below the limit requirement specified in GB/T26572.
X: Indicates that the content of the hazardous substance in at least one homogeneous material of the part exceeds the limit requirement specified in GB/T26572.
Note: This product applies an environmentally friendly design concept and effectively controls hazardous substances. The "X" indicates that the hazardous substance is primarily due to the limitations of technological development, making substitution of the hazardous substance impossible.

Environmental Protection Use Period
The symbol indicates the period (ten years) during which the hazardous substances contained in electronic and electrical products will not leak or undergo abrupt changes under normal use conditions. During this period, the use of these electronic and electrical products will not cause severe pollution to the environment or cause serious harm to the user's health and property.
